4/20 – 8/21 **M365 Sales and design**

Network Technology Partners (Full Time)

Kept up with customer relations and services. Collaborated with them on created project plans for M365 deployments. Became the V-CIO for the SMB company. Streamlined migration process and moving all on-prem servers to Azure cloud. I would go onsite to add and remove products, depending on the project. This helps the customers think of IT as OPEX instead of CAPEX. So Basically, we helped everyone move to the cloud, so they can work from anywhere.

10/17 – 3/20 **Office 365 Project Manager**

Five Iron Technologies (Full Time)

Kept up with customer relations and services. Collaborated with them on created project plans for Office 365 deployments. Streamlined migration process, Increased speed of deployments growing profits by 30%. Helping the customers understand the benefits of O365. Explaining the security benefits of working with ADFS and AD connect deployments. Able to control each client through the O365 Partner center. This gave us insight and received alerts to be proactive to upcoming issues, in the O365 portal.

12/15 – 10/17 **Office 365 Concierge team**

Microsoft Contract (Work from home Contractor)

Made sure all ambassadors on my team are meeting the call Quota. Worked with Microsoft customers on trouble shooting Office 365 cloud services Set up meeting with Administrators to help them migrate the mailboxes to the cloud Made sure to setup the Proper DNS connections, for all Office 365 Products Troubleshoot Licensing issues with customers so that they can utilize O365 to the Max potential. Helped setup AD Connect for Administrators to control the users from local servers. Explained the different ways the customers can utilize Exchange servers. Tech Soup to Verify Non-Profit Free Office 365 License

12/14 – 12/15 **Computer / Network Help Desk**

Technical Transportation Inc. (Contractor)

Maintained and installed computers within the Multi location WAN network (ADTRAN and Barracuda network connections). Utilized VLK for windows and office and Adobe products. This company had all servers in house. This was a SQL Server environment. It was an on-site Exchange, Terminal services, Multiple WSUS and VPN Connection. I installed and upgraded the 2003 and 2008 R2 servers to 2012 R2 (depending on hardware). Trouble shoot Internet Printing issues for the different WAN locations. We utilized the McAfee GPO and McAfee Email Gateway for Antivirus protection.

8/14 – 12/14 **Acosta Help Desk**

Fujitsu, Richardson, TX (Contractor)

Helping employees with computer problems when they call in for equipment not working properly. Changed needed information in AD, Exchange, for user's specification. Remote into devices Via Mobi control, diagnose connection problems. Help new employees set up user accounts and anything else I could do over the phone. Ran data recovery from local backups within the app on mobile devices (Local database software)

3/14 – 8/14 **Computer / Server IT Contract Service**

ComHome Networks, Frisco, TX (Contractor)

Advised customers to make the right decision, for their type of network. Explain how the network will perform better for them with newer devices. Also explained the importance of antivirus and internet security. Worked with Meraki managed switches, Office 365, Ring Central VoIP phones, POE Access points and Cisco Fiber Switches. Set Customers up with Office 365 accounts through Go Daddy Troubleshoot Connection Problems within Customers network. Used *Connect wise* and *LabTech* to diagnose computer problems.
